

And since there are
only eight kinds of words,
it is EASY to learn
what they are!

I.

Nouns are words
that name things, like
boat, fish, bird, island, and wind.

Nouns can even be names of
people, like Jim Hawkins.

Mark, Rachel, dragonfly, puppy, smile,
wind, wave, sunshine, mom, tree,
lizard, harbor, freedom, frog, noun

On Grammar Island,
we often will color nouns **BLUE**
to point them out, but
we cannot make every noun blue,
so if a word is not blue,
it still might be a noun.
